Measure, Appointment or Topic: HB3075

I am a 90 year old female living alone on a fixed income. I do not have the physical means, outside of the use of a gun, to physically protect myself. This measure would add cost to me that would be prohibitive. If this bill passes, you would be financially restricting my ability to exercise my second amendment right, I am tired of my taxes going up because the government is using them to hear bills that have already been heard in other courts and kicked out due to unconstitutionality. Why don't you try working on a fixed income and not spending other people's money. This bill needs to go to Ways and Means for financial impact assessment.
