

Submitter: Elise Wolf

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SJR28

SJR 28 is vague and the tenets of "clean," "healthy," and "safe" are not defined to have any real meaning. Such vague concepts are destined to wind up in lengthy court battles taking much needed financial resources from the state.

This bill also exposes our government and public land agencies to expensive frivolous lawsuits.

This bill should be shot down with a unanimous "no" vote.

Thank you,
