

Submitter: Laura Powers

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am the mother of a 10-month-old, and I cannot imagine a reason that we should not make every effort to increase the safety of our communities by passing this legislation. It is the very smallest step forward, and takes no one's rights away, only decreases the likelihood that guns would be sold unlawfully by bad characters. Please, take my family's safety into account and vote yes for this bill. There will be an opportunity to look at the feasibility of a gun licensure program, just to get more information on how to improve how guns can be sold according to our laws. You can prevent gun violence in our communities today, by voting yes.
