HB3076

I oppose bill 3076 and the back door tactics from are leaders here in oregon they are trying to pass this bill with no way of us seeing what is in it and all I can find is a very vegauue description of what it is about on line. Are tax dollars are being thrown down the drain by incompetent leaders of the state. And they are constantly trying to violate are

Amendment rights provided to us and protected my the federal government.
