

Submitter:	Robert Egner
On Behalf Of:	Voter and Tax payer
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SJR1

I fully support this resolution. We need to support our senior citizens living on fixed and sometimes very low incomes. They have paid their fair share over the many decades being taxed.

Many don't think about the rising costs of medical and pharmaceutical in our aging citizens while their incomes dwindle and they have no real way to make extra funds.

Property Tax relief could really help them make ends meet during their late life and make things easier. They helped care for all of us and build the country. Let's take care of them a bit.

YES on SJR 1
