

Submitter: Cheryl and Steve Hall

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3755

HB3755 would make my husband's and my life so much better. We have been in our home for over 25 years. We have wanted to renovate our very old home but fear the improvements would raise our yearly property tax bill, which right now is difficult to pay. The passage of this bill would free up some additional funds for the renovation and help greatly with our income level. We are currently living each month on our SSI and a small retirement investment and know this bill would help to improve our life here on the Oregon Coast. Please pass this bill for seniors like us on fixed incomes.
