On Education

Measure, Appointment or Topic: SB5516

For PPS, we need an additional 40million in addition to the 11.36billion already accounted for.

Education is a priority to me individually and should be for everybody. Education is the foundation of a healthy society regardless of one's individual needs. I have one child at Hosford middle school and another atCreston elementary that receives special education services and they are anticipating combining 4th and 5th grade classes due to budget shortfall. Please provide the extra \$40million to not jeopardize services like these.
