

Submitter: Elijah Overstreet  
On Behalf Of: Myself  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

I oppose house bill 3075. I am a highschool student, currently in sophomore year. This house bill would not be beneficial for me, or other students or people in the Oregon state. The entire thing, including measurement 114 is unconstitutional, and that is a fact. Even if you were to implement it, what would stop people or criminals from obtaining guns illegally without any form of permit? I am not afraid of a school shooter. If anything, I am more afraid of losing the ability to defend myself with a gun once I am legally able to purchase or own a firearm. I am also lucky enough to have access to school resources officers, and other safety precautions. I suggest focusing more on mental health, and ensuring illegal guns and such are not sold on the internet, so that people with criminal records aren't able to use it to gain weapons.
