

Submitter: Allison Harney

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3824

I fully support this bill and the access it brings for patients. As an outpatient physical therapist, I recognize that this bill would allow my patients to access medically necessary supplies without burdening the overextended primary healthcare system in Oregon. This saves patients' time and money and removes a roadblock to healthcare. Thank you for your consideration.
