HB3075

This is a travesty of justice for all law abiding American citizens and an outright assault by lunatic, over bearing, narcissistic, anti-constitutional liberal lobbyists, legislatures and judges who consider themselves to be above the law when it comes to upholding our hard fought for and earned right, - blood, sweat, and tears shed - on battlefields here at home and worldwide defending these freedoms to keep and bear arms, that our forefathers knew should be enshrined in our Constitution for such a day as this when our own government might try to seize power from We The People and diminish our freedoms, making a mockery of our laws by weaponizing them against us and attempting to remove and negate our constitutional right to keep and bear arms. I guess, according to Oregon lawmakers and their anti-freedom, campaign padding lobbyist buddies, we should revert to using sticks, stones, and sharp objects in order to protect and defend ourselves, our families and our communities against criminals who don't have any compassion for, restraint of their brutality for, or show any sympathy or mercy to their victims and aren't burdened by following the law, hence, why they are CRIMINALS and NOT law abiding citizens who are the real victims of this lawfare and over burdensome regulatory power grab by the left. Battered women, victims of violent assault like rape, kidnapping, human trafficking, and survivors of domestic violence can't afford to wait and pay extravagant fees in order to protect and defend themselves. Lawmakers who are creating these insane, uneducated, partisan party line, destructive and deadly laws have all the time and money they need to protect themselves and their families. Why do they hate victims but not the criminals who cause all this pain and suffering? Why aren't they working to stiffen penalties, lengthen jail time and enact mandatory incarceration for offenders/repeat offenders - those perpetrating these horrific, brutal crimes instead of making victims suffer even more by creating impossible and unattainable criteria for victims seeking to protect and defend themselves? You, Oregon legislatures, need to realize the consequences for acting so irresponsibly and foolishly in disregarding the protection and defense of your law abiding constituents and your part in supporting the destruction of the very fabric of our American Constitution by doing the bidding of these insane, destructive, anti- American lib/dem operatives that are behind these harmful agendas and chaos creating antics. Shame on you for trying to take these basic defense and protection capabilities away from average citizens while you hypocritically hide behind your safe and secure, fully protected gated homes and security details. All this ridiculous pandering to liberal ideologies does is embolden criminal behaviors to flourish. A well armed society is a polite society! This has been proven time and again, when criminals know they will encounter a well armed, fully trained defense to their attacks they tend not to engage such a resistance and look for easier unarmed targets, that is a fact.
