Development

Measure, Appointment or Topic: HB3826

Our company at one time owned and operated 48 trucks. After years of drivers retiring and lack of drivers our company was down to 30 trucks. We currently have 7 drivers that have completed CDL schooling with the help of the available grants. Our company now operates 40 trucks and have continued to need drivers. I don't know a local trucking company that is not still in need of drivers.
