On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB1167

We are being gutted as a state and country. Our children and children to be deserve every chance they can have to be healthy, happy, and able to live with basic needs and care met. I could not have been a successful parent t without thee support of doulas, resources, and community. This is a no-brainer. Find a way to support these babies and their families.
