Measure, Appointment or Topic:	HB3755

Thank you for addressing one of many concerns we face. Measures such as HB3755, would indeed help lighten the financial burden that many of us face. Seems like a reasonable ask, to assist those of us who would like to stay in our homes. We certainly couldn't afford to move. This is where our kids grew up. This in many cases is their safe place. Again thank you for your consideration on this measure. Sincerely
