House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

Wow!! Enough of this insanity!! Just because you Democratic dictators don't like firearms is no excuse for deliberately trying to illegally run FFL's out of business. Please spend your time on constructive things like you promised at the beginning of this session. FFL dealers already have enough on their plate with the outrageous current regulations. Please drop this insanity now and work on the housing shortage, garbage and fire hazards from the homeless, ect....Please fix the terrible roads that electric vehicles are not paying for. This bill is just another example of you dictators ruining honest citizen's lives and livelihoods.
