Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3076  
RE: Opposition to Oregon House Bill 3076

I strongly oppose HB 3076 due to its financial burden on law-abiding citizens and its unconstitutional restrictions on Second Amendment rights. This bill imposes excessive fees and compliance costs, making it harder for responsible individuals to exercise their right to bear arms. It also increases the cost of doing business for firearm retailers, potentially forcing small shops to close and limiting consumer access.

Furthermore, HB 3076 lacks a clear fiscal impact statement, leaving taxpayers and businesses uncertain about the long-term economic consequences. Public safety should be a priority, but this bill punishes responsible gun owners rather than addressing crime at its source. I urge you to reject HB 3076 and support policies that uphold both safety and constitutional rights.

Sincerely,

Gina Detweiler
