Measure, Appointment or Topic: HB3076

As a tax paying constituent of Oregon I fully oppose HB3076 and its amendments. There has been no transparency, this bill is flowing through without the financial statements being issued. It seems very suspicious that we all know it will have a financial impact but no statement has been issued to date. There are current laws for background checks, as well as other gun laws that are not being enforced. These gun bills you are trying to pass only make criminals of law-abiding citizens. Criminals do not follow the law now. This bill just puts more on the law-abiding business owners as well as more cost for them. The businesses have the guns secured and locked, they follow the backgrounding in place.

The testimony shows far more oppose this bill than support it. Please do as the constituents want and vote this bill down.
