Measure, Appointment or Topic: HB3076

Committee Members,

This Bill is not going to do anything more than run honest businesses out of Oregon who already have one foot out the door if both 3076 and its companion HB 3075 are not stopped. Together, these Bills spell out the true agenda of anti gun politicians and those who believe the Bills actually can solve our issues.

If the Republican "leadership" has any backbone or interest in really serving those who elected them, they will use the one tool they have left to keep this state from looking any more oppressive and foolish than it has already become. Erroneous propaganda needs to be challenged with the courage of telling the truth. That's your job.

Oregon has lost its way. A state cannot turn itself around on fairy tales.

There's valid reasons that Democrats are polling nationally at the lowest level in history. Oregon need not feed that embarrassment.

Oppose HB's 3076 & 3075 and the contrived solutions of both.
