HB 3076

I am opposed to this imbecilic attempt for the State to control the existence of firearms dealers in the state by the legislature becoming as nothing more than prostitutes and money grubbers for those who propose this and/or vote for it.

When will you all be putting the same sort of requirements on all commerce in the state and especially in the lousy journalism under the first amendment.

This would leave gun owners with no way to dispose of their firearms that to burn and/or crush them which isn't going to happen. This condition would result because no business to buy or sell firearms could afford to exist. How anti-commerce do you want to be?

Twenty two pages for this bill is more than the State Constitution, which you might read sometime. Apparently you are unable to understand what plain English language means. All proponents of it should be ashamed of themselves and finally realize that without the citizens of this state you have no job in any official capacity. I cannot tell you how really disappointed and disgusted I am with people who don't want anyone to be able to defend themselves. Almost anything may be used as a weapon depending on the circumstances and a pen or pencil can be used as one when properly applied.

Thank you and hope you all gain some degree of sanity.
