

Submitter: Jerome Harris

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Reducing the flow of illegal guns, while NOT infringing on the rights of people to buy guns, should be an imperative goal of this committee and the State legislature. A procedure for the state to license gun dealers, as it does many other businesses (such as salons and food trucks), would be a big step in the direction of reducing illegal gun traffic. People would still be able to buy guns; this bill would simply assure the gun dealers selling them are reputable. President Trump has spoken out against gun violence; he was a victim of it!
