

Submitter: Gary Langlitz

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Short and sweet: In my opinion, the regulatory framework administered by the Federal BATFE is more than adequate for monitoring the conduct of the current Federal Firearms Licensee. This proposed legislation unnecessary at the state level, and is an overbearing government attempt to interfere with the conduct of lawful business.

Why can't the government leave well enough alone?

I vote and I will not support any person who thinks this type of government regulation is in the public interest. I firmly oppose these proposed rules and most other rules being put forth by the partizan Oregon legislature.
