

Submitter: Don Ross

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I opposed this bill.

The negative financial effects this would cause upon Oregon businesses, franchises and mom/pop run gun shops, the caused effort of increase pricing on firearms being purchased is all nonsensical

There are already numerous laws in place, which are designed to protect citizens from individual from illegally using firearms, legally prevent many from being able to legally possess firearms, and even federal changes for those with significant criminal histories who possess firearms

We are already not able to enforce these laws, against those who have already proven to be the greater risks to the public and community.

So why, rather than continuing to punish those who have remained law abiding, those who secure their weapons properly, carry them responsibly, why aren't we spending more time and effort on enforcing the laws which are already in place and existing?

Why aren't our elected officials not working to encourage greater enforcement and protecting our citizens of Oregon with the laws already in place?
