

Submitter: Daniel Chase

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

HB3076 is not “common sense” gun law. It is ploy that will cost a large amount of money, jobs, and Oregonian lives. This bill does not do one thing to stop criminals from obtaining firearms. Instead this attacks both the federal firearm licensee and customer that are already jumping through hoops to obey arbitrary laws to practice their given rights as Americans. Criminals don't follow your laws.

Even if this bill is passed and M114 goes into effect, it will be heard and ruled unconstitutional as so many other laws like recently have been. So I ask, why are our courts so divided on what is and what is not constitutional? It is because of bias and improper education on the issue. Please ask yourself knowing that this will not save lives, that this will only hurt more Oregonians, is this bill constitutional? You took and oath to protect this great nation's and State's constitution. I call you to honor those oaths today.

Oppose HB3076, stop Measure 114.
