

Submitter: Mary Mundy

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3835

I strongly oppose this Bill, as it seeks to return to shuttling children out of state to accommodate the glaring failures and giant appetites of DHS. It also would also further normalize the unholy alliance between doctors and DHS, likely resulting in increased cases of medical kidnapping. We see you.

This bill is nothing more than the state asking for permission to do what they have been told loudly, and recently, that they may not do. Perhaps they didn't get the message?
