

Submitter: Patrick Skaug

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Criminals don't follow laws! This is an attack on law abiding persons, and does nothing to keep weapons of any kind out of the hands of criminals. As a law abiding person I am in complete opposition to this blatant over reach of our rights to bear arms and our ability to get them when we may need them and not to mention how this goes against not only the Oregon constitution but our federal constitution! Stop this now, we the people as free Americans will oppose this outrageous violation on our 2nd ammendment and will work together to strip any and all members of the political nature of thier power and authority and seek to have you all that participate in this unconstitutional bill charged with treason as you all are supposed to uphold our precious constitution, not destroy it and treat it with the disdain you are attempting to. Enough is enough already! Thank you
