Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I adamantly oppose HB 3076. This bill hits gun dealers with a state licensing scheme that piles on pointless rules, duplicating what the ATF already enforces. It's like making every Oregon driver get a second driver's license just to prove they can drive—same road, same car, double the hassle.

Small businesses will drown in red tape, costs will spike, and law-abiding gun owners will lose access, all for zero gain in safety. This is redundant and a gross overreach.
