Measure, Appointment or Topic: HB2050

If HB 2050 were to pass, it would enable my wife and I to more easily plan for retirement at a more appropriate age. As it stands now, we must push our retirements off until well after age 65 simply due to taxation on our post-retirement earnings. No state taxes on our military retirement would significantly impact our daily budget making and planning in a very positive way. If this bill does not pass, we will likely move from Oregon to another state upon retiring which does not tax our military retirement income.
