

Submitter: Christopher Welch  
On Behalf Of: LAW ABIDING CITIZENS  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3076

I strongly oppose HB 3076. Oregon Government and Law Enforcement Agencies need to enforce the laws we have in place now. Measure 114, HB 3075 and HB 3076 will do nothing to save lives. They will only hinder good people from being able to protect themselves. The criminals will still get the weapons illegally. I have news for you, bad people will do bad things even if it means making their own weapons. You have to stop living in fear and educate yourselves on how to protect yourself and your family. The Police are already overwhelmed and have a hard time showing up when called. We should be spending this money on getting these homeless druggies off the streets, educating our children in schools better, help the people with mental health issues with free access to treatment and enforcing laws we have in place. Bring back the death penalty! Make the punishment fit the crime. Enforce strict laws on the actual criminals and the crime rate will come down. If our government keeps patty caking around with these morons, things will only continue to get worse. Citizens are sick and tired of going to down town Eugene and having to deal with these homeless, drugged up assholes that are absolutely miserable with their own lives (many by choice). Get them off the streets and go after the drug cartel for starters. Stop allowing the drugs and homeless run this state and suck up all of our resources.

HB 3076 will only drive FFL dealers out of this state and make it near impossible for law abiding citizens to get guns in this state. That is infringement on our second amendment. STOP spending our tax payers money on stupid shit! I have an idea....MAKE OREGON GREAT AGAIN!!! STOP PUNISHING THE LAW ABIDING CITIZENS!!!!

CHANGE NEEDS TO START AT THE TOP. IF HB3076, HB3075 AND MEASURE 114 IS THE BEST OUR OREGON GOVERNMENT CAN DO, THEN WE NEED TO GET A NEW GOVERNMENT IN OREGON!
