

Submitter: Elizabeth Albrecht

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB2067

I support this legislation. Gas power leaf blowers cause too much air and noise pollution. They disturb sleep for people in the area being used as well. They are a big disturbance wherever they are used. At least battery devices would eliminate some of that, and be much better for the health of the person using them.

Sincerely,  
Elizabeth Albrecht
