Measure, Appointment or Topic: HB3835

I'm Yuàn Fengxian I'm part of SATA Self Advocates Taking Action. I'm here to give written testimony and if you pass HB 385 that will harm youth and children who have complex needs to be committed to a youth facility. We have a history of institutions that were harmful to people with disabilities and they still have that trauma and those who experienced being sent away from society. I don't want you to pass HB 385.
