Measure, Appointment or Topic: HB3856

Disclosure: we are an outdoor entertainment family, we fill our freezer (or at least try to) with the organic meats from our rivers, fields, and mountains here in Oregon. While it would seem we should be supporting HB 3856 we are adamantly opposed to it. When will the tax revenue for the State of Oregon be enough? Record revenues for the state treasury, yet the government keeps wanting more. Then, as if to soften the blow, the news is delivered as "this is for the animals, or this is for the children, or this is for the old people, etc". Just keep fracturing our state into little tiny voting blocks so it is easier to pass garbage.

The tax plan you have created is so complicated with taxes and credits it will take an accountant to figure it out come income reporting time, adding yet another expense to most of Oregon's simple lifestyle families.

Please push this one back where it came from and never let it see the light of day again.
