To whom it may concern,

I am writing to oppose SB 1076. I am a lifetime breeder, exhibitor, and professional trainer of sport dogs. I also work in veterinary medicine full time as a technician. I feel that my experience is extremely relevant.

Each time legislation attempts to intervene in matters it does not understand, the animals are the ones that suffer. Education of the public is the answer, not more control. Pushing breeders and livestock producers to go through more struggle will cause more harm not only to the animals, but to the people who love them.

As well as this opposition, the vagueness of where the funds would go from this licensing procedure is incredibly vague, and I see nowhere that the resources for inspection would be well allocated.
