

Submitter: Wallace Rogers

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

This is a HUGE GUT and STUFF.

<https://olis.oregonlegislature.gov/liz/2025R1/Downloads/ProposedAmendment/27043>

Being sneaky does not increase confidence in the legislature.

This is will run many small businesses out of business forcing buyers to travel across state lines to make their constitutionally supported purchases.

Is it any wonder why jobs are leaving Oregon left and right. Is it any wonder why businesses pack up and pay taxes in other states? Instead of increasing regulation and costs, pass legislation to force agencies to be more efficient, to learn to do even more with less. It can be done. But if the legislature keeps doing the same thing and expecting different results... we all know what that means.

The legislature needs to understand and support the needs of the legally employed people we have left. Support for law enforcement has eroded and political legal actions make it even harder for women to defend themselves. Elected turn the other way, while real people become slaves to human trafficking in Oregon and cannot defend themselves. Don't you have more important law to review and improve?
