Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am adamantly opposed to this over reaching bill. It is simply another way of violating our God-given rights and meddling with our right to firearms. It reads more like a punishment than something beneficial to we the people. Firearms dealers are already subject to a myriad of laws. This sounds more like punishment rather than a "safety issue." I strongly disagree with this unending onslaught against the peoples' rights, i.e the 2nd Amendment.
