

Submitter: John Cramer

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: HB3166

HB3166 is potentially adverse to a two party system of government, a safeguard against totalitarianism, and effectively destroys the right of each individual party to function according to its own standards. It's adoption will impact the ability of each party to nominate its favored candidates in a general election. In addition to its complex functionality, HB3166 renders void the expressed rejection of "ranked choice voting" made in the last election and should be disallowed on this basis alone.  
John W. Cramer Ph.D McMinnville
