

March 20, 2025

Good Afternoon

My name is Priscilla Stack; I am the Treatment Foster Care Oregon Team Lead (TFCO) for Family Solutions. Our program is in the process of being ready to provide care for youth with the TFCO model. Although we have not yet placed, we have recruited some homes, hired staff, and will be placing youth in May 2025.

This service will fill the gap between BRS residential placement (Cascade House) and Proctor Care, allowing for a higher level of foster care services for youth who fall between the cracks. Placing youth in a fully supported home environment, versus a residential home, is an ideal option for many youths who are developing the skills and coping strategies to become fully functional adults. The TFCO program will provide support and additional services for youth and families, additional capacity, and that the model will allow youth to stay in their own community, closer to their families and schools and that the ultimate goal is to be short term, returning youth to their permanent placement homes and support of the families.

Sincerely,

Priscilla Stack
