Measure, Appointment or Topic: HB3856

As of writing this testimony, there are 336 testimonies in opposition and zero in support. One is listed as a "support" position, but when you read the submitter's testimony it's actually an opposing testimony - they clearly chose the wrong position on measure by mistake.

Representative Helm, you are being sent a strong a clear message between this and your other "creative" over-taxing efforts (like HB 3362, a tax on tires to push us out of our vehicles and fund rail transit that no one wants) - we're done! We're not taking this anymore! And Senator Weber, what the heck! I expect this from the Democrats but how did you get roped into this?

NO on HB 3856.
