

Submitter: William Burt
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076
To the Judiciary Committee:

This bill is a solution in search of a problem. As usual, the majority party is looking for further ways of exerting draconian control measures over everyone and everything in this state. The end game in this case is to shut down gun dealers by making it nearly impossible to stay in business. That's why so many other businesses are fleeing this state; overregulation is killing them. For Heaven's sake, let's focus on real problems, such as homelessness and our students' abysmal test scores, for starters.

Sincerely,

William Burt
