Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Again, this bill does nothing to make Oregon safer. It does the opposite. Criminals do not care what legislation is implemented. When our legislators infringe on the rights of law-abiding citizens, such as this, you are actually putting our lives at risk and making Oregon a more dangerous place to be. As our representatives, you took an oath to uphold the rights of all citizens. It is your responsibility to keep that promise.
