Hello,

I oppose HB3166. The change offers no proven benefits over the style we use now. Results from other States that have RCV, suggest citizens to not think it is good upgrade, some have repealed it. That being said, Oregon just voted on this and it was rejected by 60% of the voters. The changes made to the bill don't change underlying issues with 3166. Voters don't want it. They say it's confusing. Time should be used for more pressing issues. Homelessness, drug addictions, forest management as well as budget concerns, not to mention schools. At least with the current form of voting the number of people who understand the system should be considered. Some think it's a power play by Democrats. To me, a change is unnecessary and would only reduce the number of voters participating in election. Participation is what we want right?

Thank you.
