

Submitter: Catherine Patty

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: SB715

I strongly support this legislation. Let's not hesitate on reducing car traffic. I am in favor of any action steps that further the possibility of having decent and affordable public transportation in this state. I also really like the collaboration with Washington and British Columbia. My family would totally utilize this form of transportation if it more affordable to travel. Thank you.
