

Submitter: Margaret Matthews

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am an Oregon taxpayer, and I strongly oppose this bill. I do not support my hard earned tax dollars to support a bureaucratic system that would have no benefit to public safety. Studies have shown 80% of gun deaths were from suicide. With a low percentage of gun deaths that are not suicide, how many of these guns were purchased or transferred to the current owner, were done so following the laws already on the books? This law would only effect people who are already law abiding citizens.
