Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

Dear legislators,

I oppose this bill mostly with regard to the onerous video storage requirements it will impose on small businesses, among other reasons such as increased bureaucracy. While I can understand the desire to regulate these businesses, I urge legislators to oppose this bill until appropriate amendments can be made.

I also find it discouraging that the text of the bill was revealed to the public with such short notice to give testimony.

Thank you,  
Wing-kei Yu
