SB1006

I STRONGLY SUPPORT SB 1006.

This bill upholds the separation of powers in the constitution and reaffirms that only the Legislature has the authority to propose laws.

It actually doesn't go far enough. A bill should never be allowed to be proposed if it even comes close to violating the constitution. In recent years citizens have spent millions defending the constitution, and that should be the legislatures job as our representatives.

The legislature should not be allowed to pass bills that are headed to the courts for a constitutional ruling - it should go to the voters.
