HB 3076 Testimony

Kevin Starrett
Oregon Firearms Federation

As usual, a parade of far left, elected extremists have appeared before the legislature to promote the colossal fraud that is HB 3076.

And, as usual, they presented a list of statistics that they either made up or pulled from fake reports created by their deceitful, Bloomberg funded, hacks.

But this is no surprise given that far left reporters and anti-gun activists had the details of what was going to be in this bill for months while that information was denied to the public until the very last minute. But that is the way the Democrats roll.

In spite of what was said by the supporters of this tripe, the intent is clear: the elimination of law abiding gun dealers.

And it will be a great success if, once again, the Republicans behave like lemmings and allow this lunacy to continue.
