I'm writing in support of SB1131. I've volunteered with Chintimini for the last year and a half or so, and they're an incredible organization who do amazing things for the surrounding communities. The people there are driven, selfless, honest, and have huge dreams for the facility, as well as what they can do for our communities and local wildlife. They bring incredible educational experiences to our local youth & their families, and provide opportunities for our many college students- myself included. I've completed two internships with them, and used my time and experience there for credit towards my degree. Their staff provide incredible mentorship to their volunteers and interns, dedicated to helping them learn and grow whenever they can. Chintimini deserves recognition and support for all they do for the local communities and their wildlife.
