On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I'm writing in opposition of HB 3076.

This bill adds unnecessary layers of bureaucracy. Acquiring a Federal Firearms License (FFL) already involves a lengthy process, including federal background checks, which is inherent in the FFL designation. This legislation will not effectively address violence or crime.

If lawmakers genuinely want to combat crime, they should concentrate on imposing stricter penalties and ensuring that courts take a firm stance against offenses involving firearms.

Stop trampling on our rights and our constitution.

Vote no on HB 3076
