

Submitter: Sean Connolly

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose HB3076.

This is an unnecessary piece of legislation due to FFL licensees already being regulated through the Federal government. This legislation creates an another layer of bureaucracy that further burdens the lawful activity of selling and owning firearms. Oregon purports to have many infrastructure and educational needs, but spends its time, effort and money on duplicative efforts which serve no actual purpose. Please reject this unnecessary expense and put your legislative efforts towards something more worthwhile. Thank you for your time.
