House Committee On Rules

Measure, Appointment or Topic:

HB3166

This is just another attempt by dem activist legislatures and liberal lobbyists to subvert the election process by "watering down" actual legally registered Oregon voters selections and "swamping" the candidate selection process with unnecessary and arbitrary ballot accounting criteria. Another try at failed leftist dems attempts at the hugely unpopular (even with moderate dems, independent , and unaffiliated voters) rank choice voting that is so convoluted by leftist liberal insanity knowing that if they can't outright steal an election through mail in ballot harvesting and buying votes, they'll create such chaos and disruption to the process in order to distract from the fact that their chosen candidate(s) is/are so odious and unqualified that they are willing to allow their primary dem party backed candidate to lose as long as their perceived "enemy" does not win - ensuring the least favored, least qualified candidate is eventually selected. It's a lose / lose choice that will have and has had devastating consequences for every Oregonian when ill prepared, unqualified "replacement" third string candidates happenstance into positions that will essentially have the decision making power and influence to determine how our tax dollars are spent on our children's public education, infrastructure, community development, business rules and regulations, water - sewer - public safety - and security - emergency response ... With so much dependent on choosing the most qualified, best prepared for the position, stable, dependable, effective, and efficient candidate to serve the citizens of Oregon and all the communities therein, not just a small group of fringe, unhinged, guild of narcissistic activists who can't even agree on small, insubstantial party line ideologies and agendas. This process is such a backwards, assanine way to nefariously negate the will of the people it is almost laughable if the consequences and outcomes of this being enacted weren't so dangerous and destructive to voters faith in our states election integrity. It is completely offensive and entirely dismissive for these taxpayer funded, elected government officials and legislatures to attempt such a coup d'etat from their own constituents wishes and deny their fellow citizens rights to have their votes count the way in which they were originally intended, one vote for one candidate, not from multiple attempts at trying to cancel out the top contending candidates by hook and crook. Definitely a shoddy sinister attempt to undermine our election integrity and subvert the will of the Oregon voter. This is not the democratic process in which to win an election.
