Measure, Appointment or Topic: SB681

I oppose this bill SB 681. Our tax dollars can more likely than not be used effectively by being invested in "fossil fuels" - a term coined by John D. Rockefeller to scare the populace into thinking it was a finite resource. It isn't. When Tesslas are being blown up and windmills are killing birds and whales, it would be very unwise to limit our state tax dollars limited to "green energy."

Please use your head and bury this bill where it belongs - in the bottom of the deep hole dug for Chinese windmills that have fallen apart.

Thank you,
Jayne Simmons
