

Submitter: Thilo Neubert

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I strongly oppose this measure. FFLs are already federally licensed and have to comply with a host of regulations to include background checks. The vast majority of FFLs have security systems, alarms and video monitoring. Why are we blaming the law abiding businessmen for actions of criminals. There are no penalties for criminals in this emergency measure.

Most guns stolen are sold in the local area, it is disengenuous to say that it is the fault of the FFL. This bill will put legitimate FFLs out of business, cause the firearms black market to flourish as well as raise the value of stolen guns thus incentivising the criminals.

Please vote no on this bill and instead focus on the criminals who are the root cause. Tighten penalties for theft of firearms, no probation for gun theft.
